

Intellect Furniture. It's a smart thing!

- Ingenious design.
- Smarter ergonomics.
- Brilliant reliability.

WORKING
FOR
YOU

■ Ingenious new thinking for the classroom.

Intellect Classroom Furniture:

What Intellect furniture teaches us:

One.

More comfort = less squirming = more attentiveness = more lessons learned.

Two.

Easy reconfiguration = collaboration + independent study + computer usage = the most flexible classroom.

Three.

Easily stacked furnishings = quickly cleaned classrooms = money saved.

Four.

Better design + better construction = industry-leading, 15-year guarantee.

If your furniture looks cool, works well, moves easily and saves space...everybody's happier!

■ **It's a lesson in creativity and comfort.**

It adjusts to your body.

Ergonomic seat handle – Grab the built-in handle to move or lift the chair. You can even use it as a book bag hanger.

Sculpted seat and back – Sit up and you can actually feel the extra lumbar support and cradling comfort that the Intellect seat and back provides.

Passive ergonomics – Lean up. Back. Forward. Over. The seat and back flex as you move to enhance comfort by relieving pressure points.

Waterfall edge – Sit comfortably for longer periods. Intellect seats help your circulation by reducing the pressure under your thighs.

Cantilevered base – Tuck your legs under the seat. Stretch out. Cross your legs. Shuffle all you want. The cantilevered base design gives generous legroom and makes it easy to move around.

Sliding glides – Slide Intellect chairs or desks into place. The front glides grip when stationary. The rear glides give extra anti-tip stability. These non-marring glides even protect your walls.

We took a long, hard look at classroom furniture. Worked with students. Teachers. Custodial staff. And, administrators.

What did we confirm? That school furniture has been pretty much the same for nearly half a century. That it's boring, heavy, cumbersome and uncomfortable.

So, we started all over again. With a new kind of furniture whose focus is in improving the look and performance of today's educational facilities through creativity and comfort.

■ **It promotes creative teaching.**

The design is bold and clean, but incredibly ergonomic; so students can listen and work comfortably for longer periods of time.

It adapts to your tasks.

Yet, it's also unusually light and easy to move. In fact, it's stackable. Adaptable. Mix-and-matchable. There's nothing else like Intellect furniture in the classroom today.

Comfort curve – Relax. The comfort curve lets users get closer to the work area and supports forearms while working. The oversized writing surface provides a generous 20"x 26" work area (20% more space than conventional desks).

Pencil grooves – Keep writing tools in the groove, out of the way, off the floor and easy to reach by both left and right handers. Pencil grooves are recessed on both sides of the worksurface to maximize valuable desktop space. No matter how many books you move or how many papers you shuffle across the workspace, your writing tools stay put. (On conventional desks, they wouldn't.)

Removable, stackable book box – Store books. Pull open for easy access. Use as a keyboard tray. Or, as an easy-to-carry storage tote. Remove or re-install just by lifting it over the stops. If you don't want the book box to move, screw it right into the desk rail.

Computer support (Optional) – Add the Intellect sliding, non-handed mouse pad to convert any Intellect book box into a keyboard tray.

Lightweight construction – Move it. Stack it. Rearrange it. Intellect furniture weighs 20% less than conventional thermoset hard plastic furnishings. Shhh. ABS molded plastic is also quieter in the classroom.

■ Reconfigure your classroom any way you want.

Intellect furniture is a personal study area. A computer workstation. A collaborative work environment. It's light. Easily moved. And, adjacent surfaces create unbroken work areas.

You make it yours.

Intellect chairs, desks and two-student tables come in four heights to support everyone from preschoolers to adults. Explore design options when you pick your colors for the elliptical frames, ABS hard plastic seats, backs and work-surfaces. Or add a durable laminate insert to the worksurface in a wide array of patterns and colors.

The ever-creative Intellect solution.

■ Stack furniture for more space and efficient cleaning.

Chairs stack six high. Desks stack four high. Chairs stack on desks.

We make it last.

How durable is Intellect furniture? So durable that we can confidently back these furnishings with an unprecedented 15-year guarantee.

Now, do the smart thing.

**You make the rules.
We make the rest.™**

Of course KI solutions work better for you. They're made for you. No one pays more attention to customer needs than we do. We don't design our furniture to win awards (even though it does). We don't rely on one-size-fits-all solutions (even though they would make our life easier). We find out what the market needs. And, we make it. The same applies to our service, distribution...everything we do. KI solutions work, because we're working for you.
